

Keep Your Computer Updated

Keep your device software up to date so it is not vulnerable to malware. Use anti-virus software for better protection.

Don't Give Out Personal Information

Keep your personal information private and use it on safe sites only.

Create Complex Passwords

Create passwords with a combination of letters, numbers, and symbols. Don't use the same password for everything

Avoid Suspicious Online Links

Treat unexpected emails and texts like unexpected phone calls. Don't click any links that you are sent or that pop up on your screen unless you are confident it's legitimate.

Check Website Reliability

Before purchasing anything on a website ensure that it's safe.
